Selection Back Wide

AL354020015 - XX-Large | AL354020016 - XXX-Large

Designed for people with a more excessive front section that need extra lift and support. The closure on the front is divided into two sections to make it easier to put on and to adjust the height on the front section. The reinforcement in the back divides pressure over a larger surface, yet leaves the spine free from pressure.

It has extra stabilizing straps that "cross-over" in the back.
Measurement at Hip: 1250-1400 mm for XX-Large
1400-1600 mm for XXX-Large

Ossur Wraparound Hinged Knee Support

OS212009 - XX-Large | OS212010 - XXX-Large

A low profile brace with Dual Action Hinges moulded into the brace and adjustable strapping to give extra support. It is made of neoprene lined with Lycra to offer a breathable contact area for comfort and extensive use. Wraparound design makes it very easy to put on and off and also accommodates legs of all shapes and sizes.

Colour: Black

Measurement at Mid-Patella:
17" - 18" for XX-Large; 18" - 23" for XXX-Large

Bariatric Perching Stool with Arms & Backrest

PHPAT0911156678

Designed for comfort and stability, this Bariatric Perching Stool features a sturdy frame with an adjustable height to suit users of various needs. The arms and backrest provide added support, making it ideal for those who require extra assistance while sitting or perching. The non-slip feet ensure stability on different floor surfaces, enhancing safety during use. This stool is perfect for use in the kitchen, bathroom, or anywhere a supportive seat is needed.

Suitable for users up to 250 kg

Belgrave Bariatric Commode / Shower Chair

DM190

An extremely robust commode with a non-peel frame and a cellular moulded backrest and over seat that can be removed when needed. Comes with a bucket which holds 14l and a lid.

It is a height adjustable commode so the user can achieve the most comfortable position and the arms can also be removed for easy side lateral transfer

Suitable for users up to 280 kg

Under Arm Bariatric Crutches - Pair

SMBE61314B

These heavy-duty steel crutches provide durability and support for users weight up to 249 kg. They are durable crutches for heavier, long term users. The push-button adjusted foot pieces with fitting scale allow for accurate and fast fitting. 1" adjustment increments on both the handle and the height, provide a precise fit which reduces muscle fatigue.

Completely latex free
